

LED ROCK LIGHT

Quick Manual

Voltage: **12 V** Current: **~ 0.4 A**

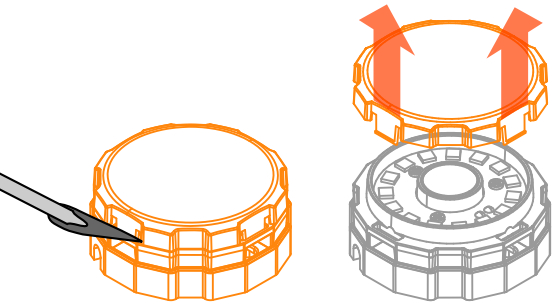

Waterproofing: IP67

INSTALLATION SUMMARY

- **Leave the terminal wires/connectors available during installation.**

CLIP-ON REPLACEABLE LENS

- Insert a flat-head screwdriver at the 4 clips and twist slightly to remove the lens.
- When re-applying the lens, press down firmly with equal pressure around the light until the clips snap.

WARNING

- Keep children away from electrical equipment.
- Avoid over-voltage, which can cause damage or fires.
- Do not clean your light with harsh detergents.
- The supplier is not liable for misuse-related damage or injuries.
